

## IREP EXCELLENCE SCHOLARSHIPS

the Department of International Relations and European Studies  
is proud to announce the

### IREP Excellence Scholarships

Scholarships are awarded on a per-semester basis among all students of  
the IREP program as a reduction of tuition in the following semester.

Students are eligible from the completion of their first semester until the  
completion of their penultimate one.

*Three scholarships are awarded each semester:*

- 1. 50% reduction of tuition (550€)*
- 2. 30% reduction of tuition (330€)*
- 3. 25% reduction of tuition (275€)*

Scholarship winners are determined after the end of a semester automatically based on their  
study average for that semester only (versus all students in the program) if they successfully  
concluded at least two graded courses.

Each student may only be the recipient of the scholarship twice during his bachelor studies.

Should multiple students achieve an equal average, the higher number of credits per semester  
and then the higher point score in those subjects will determine rankings. All further necessary  
decisions rest with the program director.

For further information contact your study advisors.
